

BugSquidge v0.1

13/22 completed

Reported By	Date	Name the Bug (optional)	Description	Completed by
Olivia	2nd-September	Olivia's 404	Registration is broken. Upon completing the registration form and pressing submit/enter the user gets a 404 error. The confirmation email is still sent and everything works as normal after that.	Andy
Andy	7th-September	Need a bug tracker	We need a bug tracker that isn't Jira, that's easy to get to from outside of QUT	Andy
Andy	7th-September	Home Page UX	Need to make the home page look prettier.	Andy
Olivia	7th September	Contact Page Error	Contact link/page doesn't work	
Lachlan&Jack	13th September	Sensitive information protection	Anonymys Users viewing registered users accounts. Send them to a register page	
Jack	13th September	Password Field Side Text	When registering an account, text should appear to the side of the field to tell the user that their password is not long enough, has no numbers ect.	
Jack	13th September	Search Bar & Search Button Positioning	When using the mobile menu button, the search bar and buttons are too close to the left-hand side edge.	
Andy	14th-September	Eric's Missing Code	Some of Eric's code has been lost in a git-merge	Andy
Andy	14th-September	Search Input Alignment	Search input doesn't align center when window is resized smaller than usual.	Andy
Andy	14th September	Search Result Usernames	Can we swap usernames for real names? Need to add support for this to the model.	
Jack	14th September	Website Crash Upon Illegal Information Change	Changing the phone number of an account to have numbers is fine, but letters will crash the website.	
Jack	14th-September	Confirmation Email Polishing	After the comma in front of your name, it should start the rest of the message on a new line, followed by another break and then a short "Thank you, Texchange Team" or something.	Andy
Jack	14th September	ISBN Field Supports Text	One is able to have text in the ISBN (not sure if intentional).	
Jack	14th September	Year Field Supports Text	One is able to have text in the Year field (definitely not intentional).	
Olivia	14th-September	Change Password Bug	Using Firefox, when changing my password I got the following message: http://puu.sh/kaOpz/0594f22053.png It's a good feature for us admins, but if it pops up for general users, that's no good.	Eric/No fix needed Firefox (and other browsers) feature for remembering user accounts. Working as intended.
Liza	14th September	New book, Year/Edition	Can still submit a book with a strange year/edition.	
Lachlan	15th-September	Missing Phone Number	Registered with phone number "1234567890". Public Profiles say no contact number.	Andy
Eric	16th-September	Style-bug	Book details pages aren't styled the same as the rest of the site.	Andy
